## ABOUT THE PROJECT

Osceola County is currently in the design phase for Phases 2, 3, and 4 of the Simpson Road Improvements Project. The need for the project is based on capacity and safety, as well as improving connections to the City of Kissimmee, Orlando International Airport (OIA), and the emerging NeoCity and Medical City technology clusters. The improvements, as determined by the Project Development and Environment Study (PD&E), include reconstructing Simpson Road from 2-lanes to a divided 4-lane roadway including a 26-foot median, a 10-foot shared use path for bicycles and pedestrians on each side of the roadway, street lighting, upgraded signalized intersections, seven stormwater ponds, and areas preserved for landscaping.
